八 新考向 阅读短文,完成任务。(24分)

New spacesuit (太空服) for moon explorations (探月)

The US showed its new spacesuit. The new suit is comfortable for astronauts (宇航员) to wear for up to (最多) eight hours on the moon.

It is different from the old spacesuit in some ways (方面).

1. It has lights on the helmet (头盔).

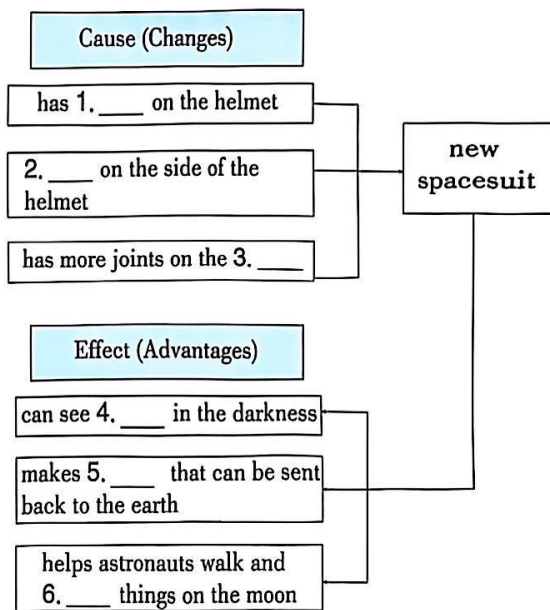

Astronauts can see clearly in the darkness on the moon.

2. There is a camera on the side of the helmet. It makes videos that can be sent back to the earth.

3. The new suit has more joints (关节) on the legs. It's easy for astronauts to walk and pick up things on the moon.

The suit now has a cover layer (层) in dark gray with blue and orange colours. But the final suit will be white. The white colour helps to keep astronauts cool in space.

任务一:根据短文内容,补全思维导图。(18分)

任务二:阅读短文,判断下列说法与原文是(T)否(F)一致。(6分)

() 1. The suit is too old and not comfortable.

() 2. The suit has got lights and a camera.

() 3. The final suit will be white.
